

Total Electric General Service (MG3)

AVAILABILITY: Electric service is available under this schedule, in the entire area served by the Department's existing secondary and primary voltage distribution system, to any general service customer employing only electric service. Non-electric fuel use for incidental fuel supply for restaurant cooking equipment will be allowed under this schedule. Customers taking service under this rate schedule shall contract for no less than 25 kW of demand.

SEASON PERIOD: Periods are defined by the date when the customer's meter is read. The summer season contains read dates from June 1st through October 31st. The winter season contains read dates from November 1st through May 31st.

TERMS OF SERVICE: Service rendered under this schedule is subject to the Department's standard rules and regulations.

TERM OF CONTRACT: Contracts under this schedule shall be for a period of not less than one year from the effective date thereof.

BILLING DEMAND DETERMINATION:

Summer Season Period: The current month's maximum 30-minute measured kW demand, but not less than 25 kW.

Winter Season Period: The current month's billing demand shall be the lesser of (A) or (B), determined as follows:

- (A) The current month's maximum 30-minute measured kW demand, but not less than 25 kW.
- (B) The highest of the maximum monthly 30-minute measured kW demands established during the months of July, August, or September, included in the twelve months ending with the current month, but not less than 75% of the current month's maximum 30-minute measured kW demand, nor less than 25 kW.

Total Electric General Service (MG3)

Available to all customers, effective November 1, 2023
