

Residential Space Heating (MR5)

AVAILABILITY: Electric service is available under this schedule, in the entire area served by the Department's existing secondary voltage distribution system, to single family dwelling units or apartments that have qualifying permanently installed electric space heating. The electric space heating equipment must be the primary source of heating and it must be able to provide whole house or apartment heating.

SEASON PERIOD: Periods are defined by the date when the customer's meter is read. The summer season contains read dates from June 1st through October 31st. The winter season contains read dates from November 1st through May 31st.

TERMS OF SERVICE: Service rendered under this schedule is subject to the Department's standard rules and regulations.

TERM OF CONTRACT: Contracts under this schedule shall be for a period of not less than one year from the effective date thereof.

Residential Space Heating (MR5)

Available to all customers, effective November 1, 2023
